

Kuratorium

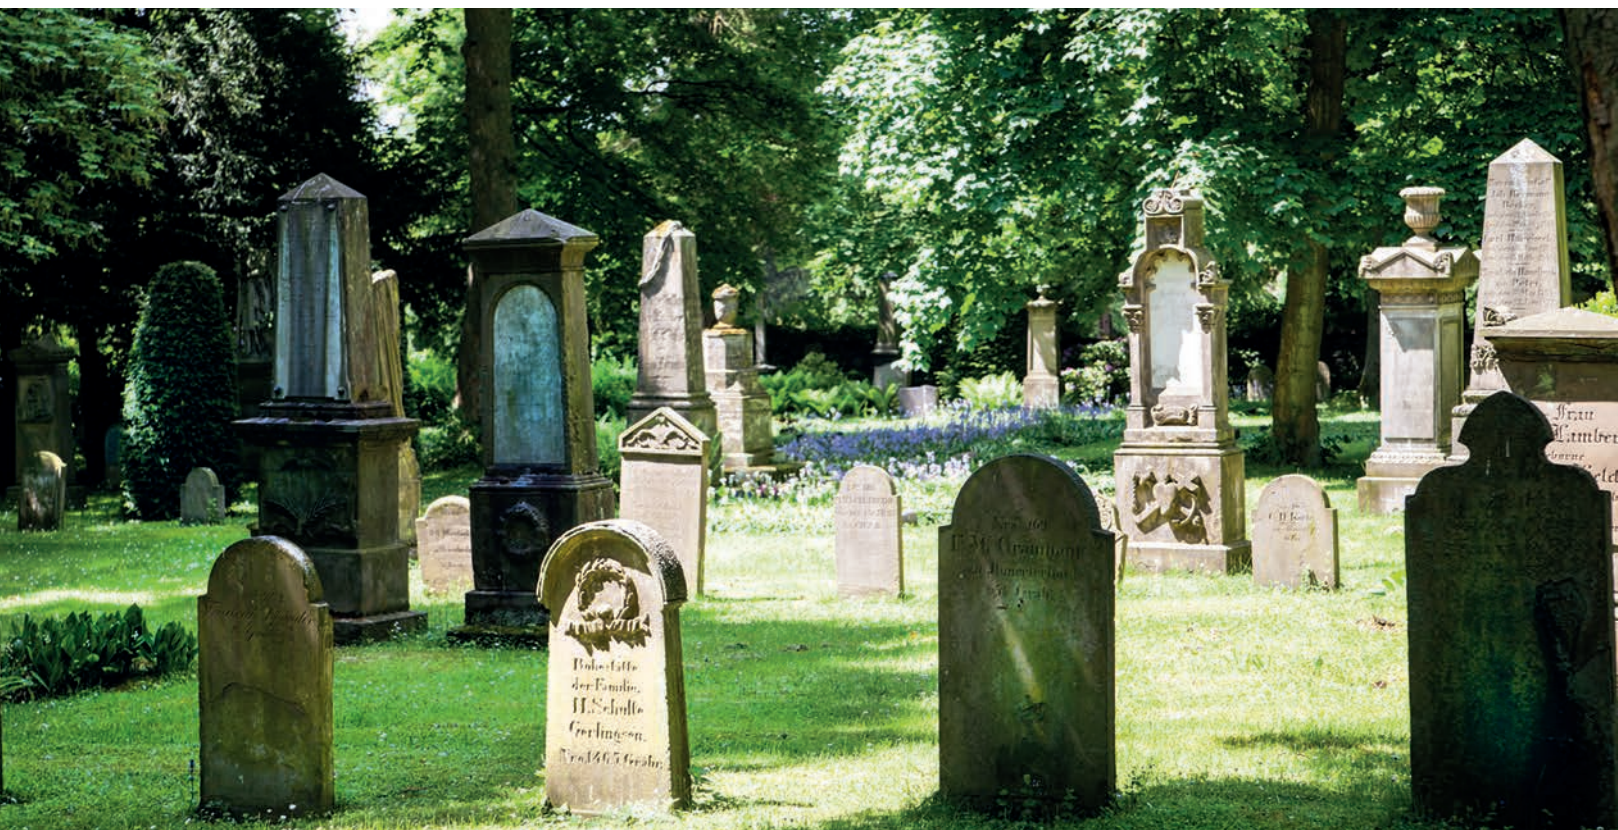

Immaterielles Erbe
Friedhofskultur

UNESCO-Initiative from Germany

Together for one aim:

INTANGIBLE CULTURAL HERITAGE

CEMETERY CULTURE IN EUROPE

INTANGIBLE CULTURAL HERITAGE ,CEMETERY CULTURE IN EUROPE‘

Cemetery culture is part of the „Nationwide Inventory of Intangible Cultural Heritage“ in Germany. It refers to the architecture of cemeteries, burial practices and mourning and commemoration rituals. Associated craft techniques and customs preserve this cultural form and ensure the maintenance of the cemeteries.

The official partner of the German UNESCO Commission for the care, preservation and further development of this intangible cultural heritage is the „Kuratorium Immaterielles Erbe Friedhofskultur“.

The non-profit association is now reaching for a UNESCO nomination of „Intangible Cultural Heritage Cemetery Culture in Europe“ as common initiative of several European countries. To achieve this aim, it is necessary, that other European countries obtain the Intangible Cultural Heritage status for their national cemetery culture.

The Kuratorium is now looking for European partners. If you are interested in collaboration, please contact:
